

## NIST/OWM State Directors Roundtable 2018 questions

1. What is new or has changed in your program, jurisdiction or state over the past year? Consider the following areas:
  - Facility?
  - Equipment?
  - Staffing?
  - Budget?
  - Policies (laws and regulation)?
  - Laboratories?
2. How are you handling succession planning and retention of employees?
3. What new consumer habits, technology changes, or market changes do you anticipate affecting your program in the coming years? How are you planning for those changes?
4. Can you share any examples of how you've used new technologies or implemented other practices to make your resources stretch further or operate more efficiently?
5. What could NIST/OWM do to help prepare your program for the future? (other than additional financial resources from NIST).
6. How can NCWM or the regions help prepare your program for the future?
